

HERBICIDES, PESTICIDES FERTILISERS & FUNGICIDES

What chemicals are stocked at Henleaze Garden Shop? Anything that you add in addition to the soil or onto a plant as an effect - beneficial or detrimental if not used correctly. Follow the instructions on the packaging and ask our team for further instructions.

HERBICIDES

Roundup Fast Action - Weedkiller (ready to use & concentrate)

Fast Action Ready To Use Weedkiller is a systemic weedkiller, killing the root so weeds don't come back. Degraded in soil by micro organisms, fast action results are visible in 1-2 days.

Roundup Naturally - Weedkiller (concentrate)

Plant and re-seed within 3 days thanks to high-performance ingredients, that naturally break down in soil. Multi-purpose, tackles a wide range of annual broad-leaved weeds and starts working within 3 hours. Ideal for vegetable patches, borders, flower beds, paths and patios as an effective weed solution.

Weedol Rootkill plus - Weedkiller (ready to use & concentrate)

Target treatment to kill the roots of weeds, including tough perennials and grasses such as docks, stinging nettles, thistles, couch grass, dandelions and creeping buttercups.

Solabiol Superfast Weedkiller - Weedkiller (ready to use)

If you are looking for a natural solution to the weeds in your garden, then look no further than Solabiol Super Fast Weedkiller. With results visible in 1 hour, this weekiller tackles broad leaved weeds, moss, algae and liverwort and can be used around flowers, shrubs and edible crop

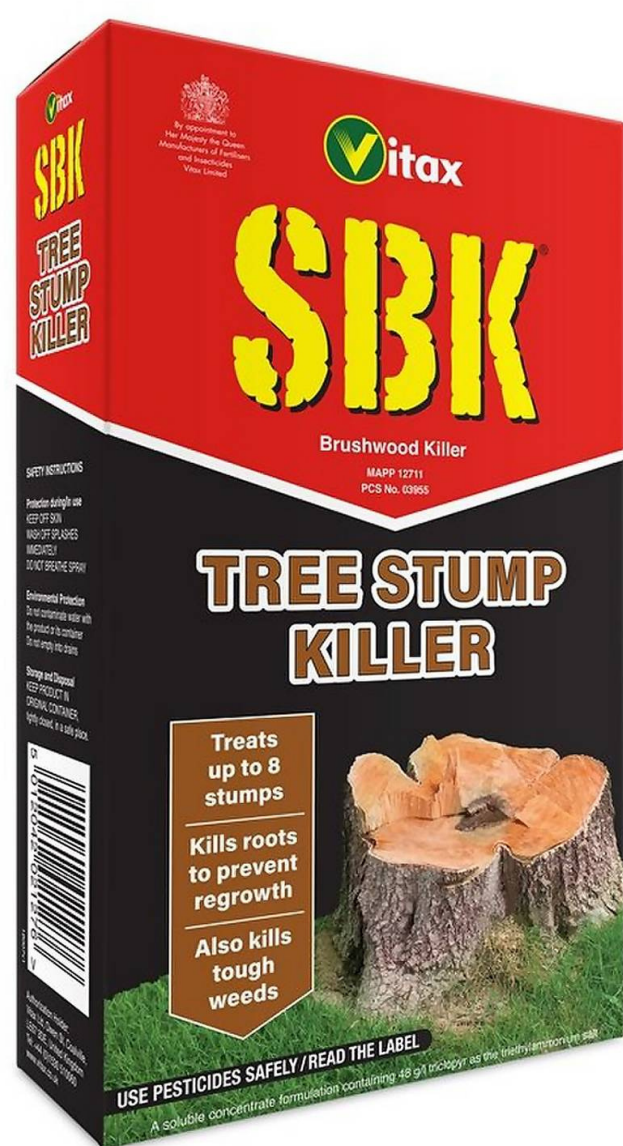

Bayer Garden rootkill - Weedkiller (ready to use)

For use on unwanted vegetation around the garden and also on areas not intended to bear vegetation such as paths and drives. Do not use on the lawn unless you want to kill the grass! Apply at any time when the weeds are actively growing and have adequate leaf area to absorb the product. Apply in calm conditions to avoid spray drift onto cultivated plants.

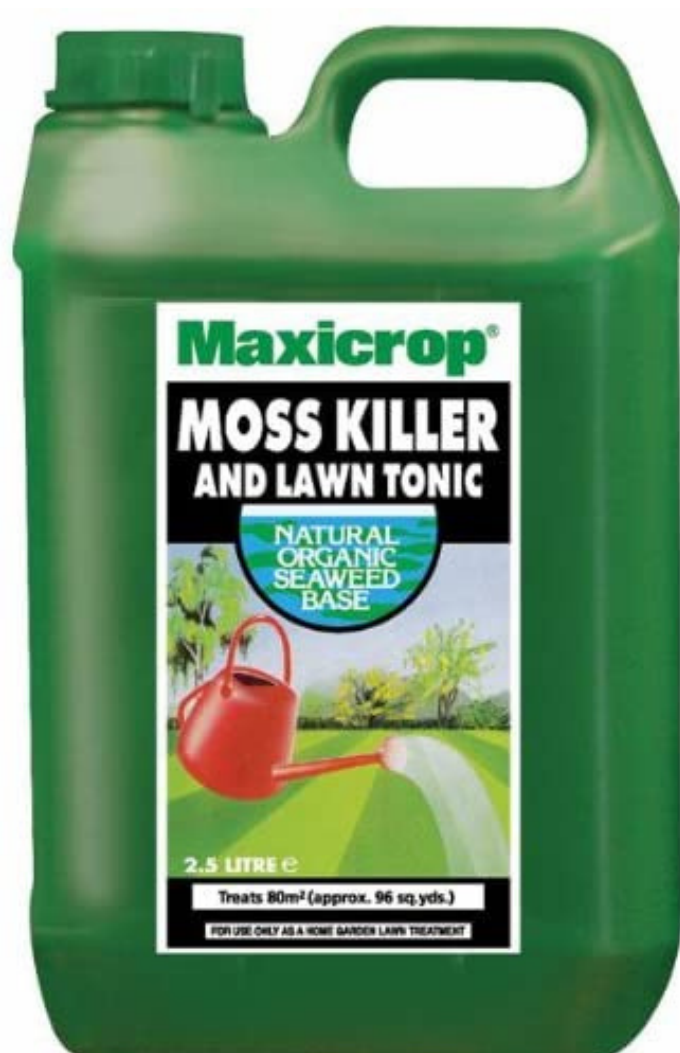

SBK Tough WeedKiller - Weedkiller (ready to use & concentrate)

SBK tough weedkiller is specially formulated not to harm grass, so you can use it close to the lawn. However it will kill any of your precious garden plants that it comes into direct contact with, therefore care is needed when applying it. It is very effective when used on tree seedlings and saplings, such as ash and sycamore which are a problem in many gardens.

SBK Stump Killer - Weedkiller (concentrate)

Kills tree stumps and their roots to prevent regrowth. It can also be used on woody weeds and hardwood saplings. A glyphosate-free option, SBK Tree Stump Killer is a soluble concentrate which should be used for the treatment of tree stumps during autumn and winter, avoiding April, May and June when the sap is rising.

Maxicrop moss killer & lawn tonic - Weedkiller/fertiliser (concentrate)

Maxicrop Moss Killer & Lawn Tonic is a 2-in-1 solution that contains a natural organic seaweed base, killing moss & offering rapid results. With Seaweed Extract plus Ferrous sulphate & Nitrogen, this product blackens moss within hours and rapidly stimulates grass re-growth of the treated area.

Weedol Pathclear - weedkiller (ready to use & concentrate)

Weedol Pathclear kills weeds and prevents new weeds. It creates an invisible barrier that prevents new weeds for up to 3 months. It is ideal for paths, drives, and patios. This product contains glyphosate and diflufenican.

PESTICIDES

PY Bug Killer (ready to use & concentrate)

PY Bug Killer Concentrate is a broad spectrum insecticide which specifically controls aphids and caterpillars on roses and a range of vegetables. A strong bug killer, the concentrate can also be used against beetles on particular vegetables. PY Bug Killer Concentrate: For use on edible and ornamental plants

PY Powder - (powder)

PY Powder is an ideal insecticide for the control of a range of insects including: flies, mosquitoes, ants, cockroaches, wasps, earwigs, silverfish and other pests such as fleas, bedbugs and caterpillars. Can be puffed into hard to reach crevasses. Product is organic containing pyrethrum - a natural insecticide. However this does not mean it is to be used willy-nilly and can have a detrimental effect to the environment if used incorrectly.

Provanto Smart Bugkiller - (ready to use)

A revolutionary bug killer that's an alternative to neonicotinoids, Provanto Smart Bug Killer provides longer lasting protection for up to 8 weeks on a range of ornamental and edible plants. Pests also stop feeding in one hour, with results becoming visible within 24 hours. For use in the home, garden, greenhouse and conservatory, it protects a range of ornamental and edible plants for common insect pests.

Provanto Ultimate Bug Killer- (ready to use)

Fast acting and gives up to two weeks of control. It kills most common pests including Greenfly, Whitefly, Caterpillars, Blackfly, Pea & Bean Weevils, Sawfly, Leaf Beetles, Capsids, Red Plum Maggot and Plum Fruit Moth. Contains a mixture of 5-Chlor-2-methyl-2H-isothiazol-3-on und 2-Methyl-2H-isothiazol-3-on (3:1) (CIT/MIT). May produce an allergic reaction. Toxic to aquatic life.

Bug Clear Fruit and Veg- (concentrate)

Bug Clear is a natural insecticide and acaricide for use on flowers, fruit and vegetables. It controls greenfly, blackfly, whitefly, scale insects, mealy bugs, red spider mites and other mites. The product can be used outdoors and indoors

Bug Clear ULTRA 2 Flower, fruit and veg - (Ready to use & concentrate)

Bug Clear is a natural insecticide and acaricide for use on flowers, fruit and vegetables. It controls greenfly, blackfly, whitefly, scale insects, mealy bugs, red spider mites and other mites. The product can be used outdoors and indoors.

Bug Clear ULTRA 2 Vine weevil- (concentrate)

Bug Clear is a natural insecticide and acaricide for use on flowers, fruit and vegetables. It controls greenfly, blackfly, whitefly, scale insects, mealy bugs, red spider mites and other mites. The product can be used outdoors and indoors.

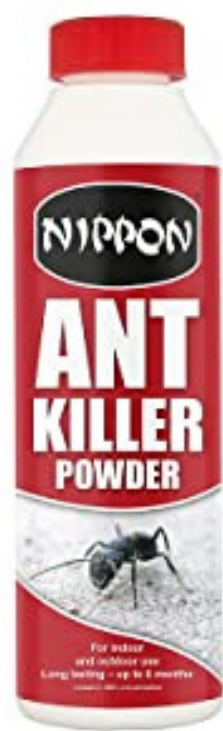

NemaKnights Nematodes- (biological insect control)

Biological Insect Control (No refrigeration required!)

Based on encapsulated *Steinernema feltiae* the product has a 6-month stable shelf life.

Extended slow release to control of larval soil pests with an easy application; simply flip lid and shake in the area with pests

Nippon Ant Killer Powder - (powder)

Highly effective control of common black ants and crawling insects · Use indoors and outdoors, kills on contact

Nippon Ant killer liquid - (Gel)

Nippon Ant Killer Liquid Bait Insecticide Treats 4-6 Nests 25g Tube · Insecticide Treats 4-6 Nests · Controls common black ants

Zero in Ant killer - (powder)

Zero in ant and insect killer powder is an insecticidal powder for the control of ants, woodlice, earwigs and other crawling insects. For use in the home and garden. Bottle has a nozzle spout for direct application, which is protected by a child resistant cap treating up to 15 sq m.

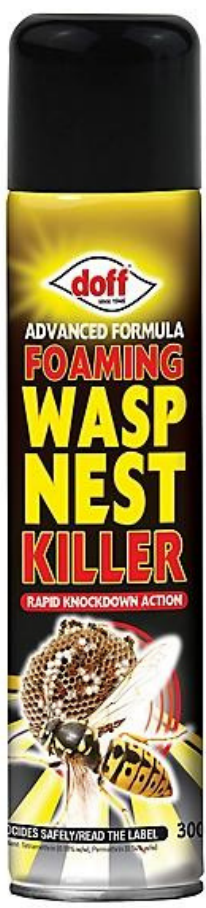

Defender Ant Killer - (powder)

Ready-to-use powder for the control of ants, earwigs, woodlice, silverfish, cockroaches and beetles. Defenders Ant Killer Powder is an insecticidal contact killer.

Rentokil wasp nest remover foam - (aerosol foam)

Designed to exterminate wasps within their nest from a distance. Use this product when entire nests are visible in a loft, shed, garage, tree.

Doff wasp nest killer- (powder)

Wasp Nest Killer Powder is an insecticide powder.

For use indoors and outdoors, on floors, around cupboards, in cracks and crevices, along runs in and around nests, and at points of entry to the property.

Vitax Stay off Scatter Gel - (Gel)

This ready to use gel contains natural plant oils and works by confusing the animal's sense of taste and smell. It releases a highly perfumed, non-harmful odour over a period of days, that encourages your pet to use untreated areas rather than your paths, patios, and lawns.

Vitax Scent Rabbit repellent (powder)

A natural product designed to protect areas such as lawns from surface scratching, Rabbit Repellent is the ideal repellent for organic gardens. Containing 12% nitrogen – an essential plant nutrient - Rabbit Repellent can boost plant growth and improve turf colour.

Doff Power up slug and snail - (granules)

Doff Power Up Slug and Snail Killer is a ready to use bait containing 37 g/kg hydrated ferric phosphate (technical) [at least 29 g/kg anhydrous ferric phosphate]. It reduces the damage caused by slugs and garden snails. Slugs move away to die leaving no excessive slime and no visible dead slugs. Safe for mammals and birds.

Vitax Slug rid - (granule)

A ready-to-use bait, Slug Rid controls slugs and snails around all edible and ornamental plants.

Containing ferric phosphate, simply spread around plants at the first sign of damage.

Doff slug and snail killer - (Granule)

A slug and snail killer that is perfectly suitable for organic gardening and can be applied to edible crops and plants up until harvest

Slug Gone - (wool pellet)

Slug Gone is the natural, organic way to keep slugs and snails away from plants. Popular amongst environmentally-conscious and organic gardeners, Slug Gone is 100% natural and derived from British wool.

Slug Gone is applied to the soil below the plant to create a irritating, absorbant mat that works as a natural slug repellent. It prevents slugs and snails from reaching the plant, whilst adding nutrients to the soil and locking in moisture.

FUNGICIDES

Provanto fungus fighter plus - (ready to use & concentrate)

Ensure clean healthy plants with Fungus Fighter Plus Ready to Use, Fungus Fighter Plus is a systemic fungicide that gives long-lasting control for up to 3 weeks. Systemic means that the fungicide is absorbed into the plants sap stream to eradicate and prevent the development of the disease. Fungus Fight Plus is the ideal solution to control Blackspot, Powdery, Mildew and Rust on Roses and Leaf Spot including Box Blight, Powdery Mildew and Rust including White Rust on woody and non woody ornamental garden plants.

Fungus Clear Ultra - (ready to use & concentrate)

Fungus Clear Ultra is a 3-in-1 systemic fungicide ideal for roses, other flowering and ornamental plants.

Rose Clear Ultra - (ready to use & concentrate)

RoseClear Ultra is a systemic fungicide and insecticide ideal for roses, other flowering and ornamental plants Kills aphids (greenfly and blackfly) within 24 hours Fights existing infections of blackspot, powdery mildew and rust Protects plants against further infestations of aphid and disease attack, including new growth Contains Acetamiprid and Triticonazole

FERTILISER

Maxi crop seaweed growth stimulant - (concentrate)

Maxicrop plant growth stimulant is a pure liquid seaweed extract plant growth stimulant, for use with fertilisers. It is widely proven in scientific research to stimulate germination, rooting and establishment from seed to mature plant. It improves natural plant health and the ability to withstand environmental stress.

Maxi crop sequestered iron - (concentrate)

Sequestered iron is used to correct or stop iron deficiency in plants from happening. Sufficient iron reduces chlorosis (yellowing) and helps plants to develop healthy green leaves and flower more, despite poor soil condition. Results can be seen very quickly (within 24 hours) and last for weeks. Sequestered iron or chelated iron has been chemically altered to bind it.

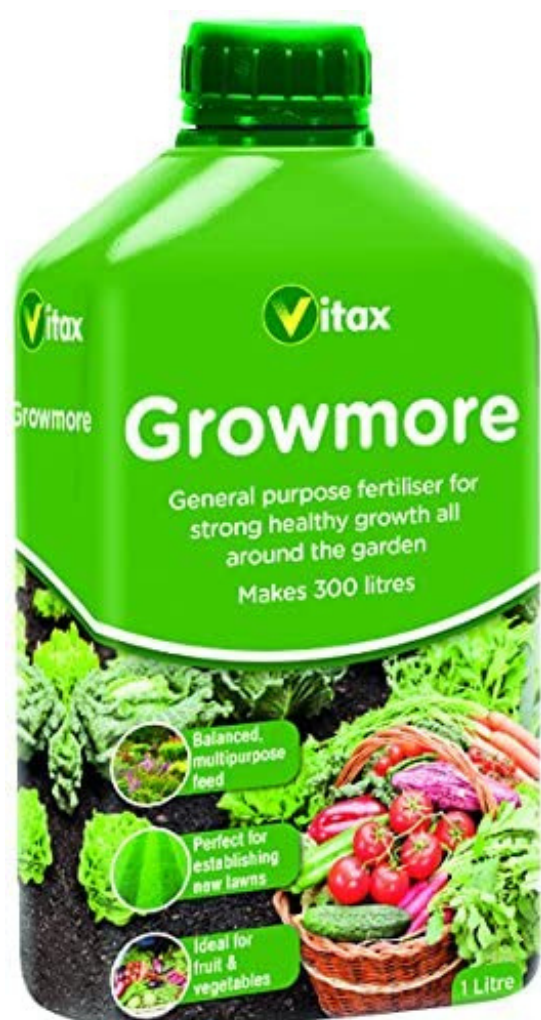

Miracle Gro all purpose - (Liquid & Granula)

Miracle-Gro All Purpose Soluble Plant Food is a unique mix of 10 micro nutrients to ensure healthy growth. For stunning displays just feed every two weeks from March to September. This product is easy to apply using the Miracle-Gro Feeder or with a watering can.

Miracle Gro Pour and Feed - (Liquid)

Pour & Feed Ready to Use Plant Food liquid is ideal for all plants inside and out. Now with an added bio stimulant which works as a natural super food for your plants, ensuring they grow healthy and beautiful. Easy to apply; no dilution, no hassle.

Growmore - (Liquid & Granula)

Vitax Growmore is a general purpose fertilizer for use all around the garden and greenhouse. It is a highly effective fertilizer, specially designed for strong healthy plant growth. Containing the three major plant nutrients Nitrogen (N), Phosphates (P) and Potassium (K) it promotes heavy crops of fruit and vegetables, vigorous plants and beautiful flowers

Miracle Gro Organic Fruit and Veg - (Liquid & Granula)

Performance Organics from Miracle-Gro is a breakthrough range of 100% natural and organic gardening products proven in trials to grow twice as much produce as unfed plants. Made purely from plants, this organic liquid plant food produces excellent results

OUTDOOR Baby Bio - (Liquid)

The 750ml bottle of Baby Bio Outdoor Fruit & Vegetables is a great all round liquid concentrate feed to grow healthy fruit and vegetables.

Vitax Yellow Sulphur - (Powder)

Sulphur is an important secondary nutrient for all plants. A vital component of many amino acids, it is essential for efficient protein production.

A plant nutrient and soil acidifier, Yellow Sulphur helps to grow strong, healthy flowers, fruit, vines and vegetables

Maxi Crop All purpose natural fertiliser - (liquid)

Maxicrop's All-Purpose Organic Garden Natural Fertiliser is your ally in making plants, flowers, fruit & vegetable crops grow healthy & strong. Containing Arctic sourced alga known for its stress resistance building properties, Maxicrop's Seaweed Extract will provide balanced nutrition for ALL plants, producing bumper crops of fruits & vegetables.

Vitax Organic Tomato Food - (liquid)

Maxicrop's All-Purpose Organic Garden Natural Fertiliser is your ally in making plants, flowers, fruit & vegetable crops grow healthy & strong. Containing Arctic sourced alga known for its stress resistance building properties, Maxicrop's Seaweed Extract will provide balanced nutrition for ALL plants, producing bumper crops of fruits & vegetables.

Vitax Organic Food - (liquid)

Liquid Tomato Feed has been formulated to produce bumper crops of juicy tomatoes. Ideal for use on tomatoes grown indoors and outdoors in a variety of ways.

Levingtons Tomorite - (liquid)

Feeding with Tomorite can give you up to 50% more tomatoes versus unfed, and help produce top quality, full flavoured produce thanks to its seaweed-enriched formula.

Not strictly for tomatoes, you can also use Tomorite on all fruits and vegetables as well as flowering plants, all around the garden.

Vitax Ericaceous feed - (liquid)

Ideal for azaleas, camellias and rhododendrons, Liquid Ericaceous Feed is a concentrated feed with added iron and manganese to encourage the strong, healthy growth of all acid loving plants.

Promoting flowering, Liquid Ericaceous Feed has been developed as part of a new specialist range of feeds and fertilisers which meet the specific needs of gardeners looking for tailored solutions to help boost plant growth.

Miracle Gro Azalea, Camelia & Rhododendron - (liquid, soluble powder & slow release granule)

Azalea, Camellia & Rhododendron Concentrated Liquid Plant Food helps to create stunning flowering displays for all acid-loving (ericaceous) and lime-hating plants. Containing a unique mix of 9 nutrients carefully balanced to provide plants with essential nutrients required for optimum growth and flowering and prevents yellowing leaves caused by a lack of iron. This fast acting tonic works to give unhealthy plants that extra boost and feeds for up to 2 weeks.

Miracle Gro Rose & Shrub - (slow release granule)

Feeds plants for up to 6 months, removing the need for regular feeding. Temperature controlled coating releases nutrients only when conditions are right for feeding. Ideal for feeding roses and shrubs in beds, borders, pots, containers and hanging baskets. Feeds up to 40 bushes.

Garden Lime - (granula)

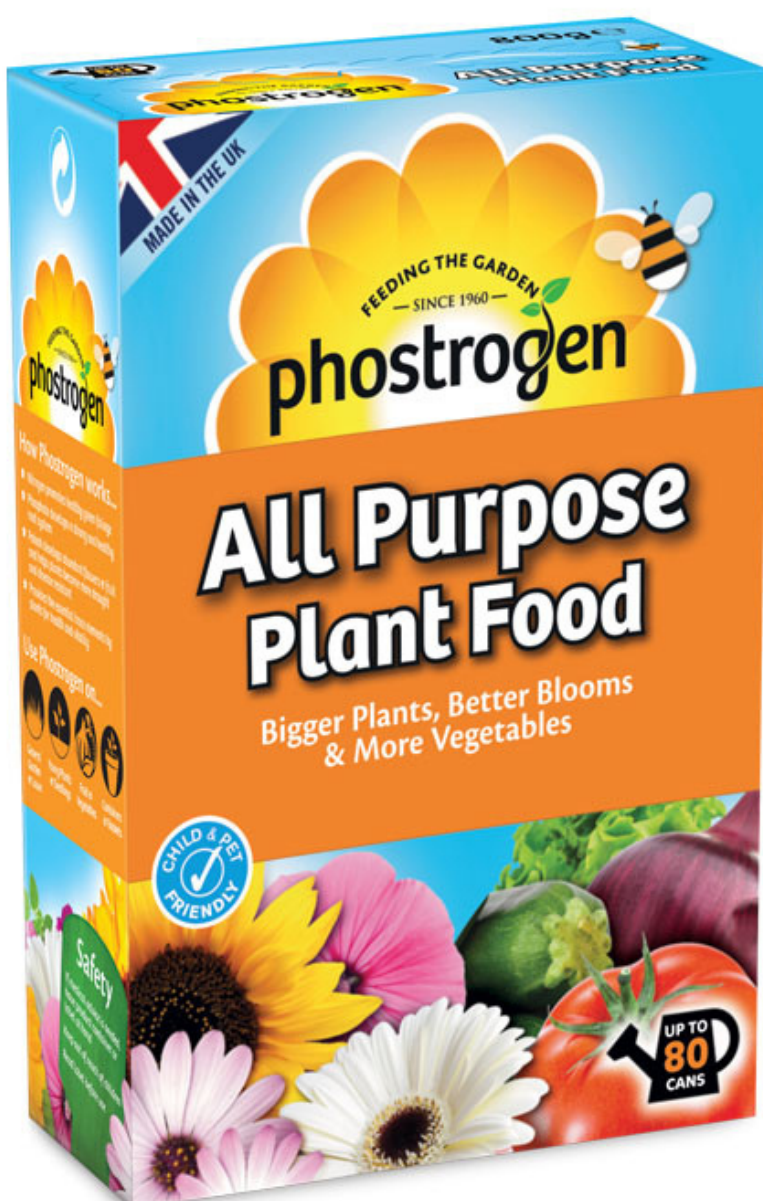

A virtually dust-free granular soil conditioner, Garden Lime has all the advantages of powdered lime, without the need to handle dusty material. Easy-to-use, Garden Lime neutralises acid, sour soils enabling beneficial soil bacteria to flourish and release the plant foods 'locked in' by acid soils.

Calcified Seaweed - (granula)

A naturally occurring soil conditioner, Calcified Seaweed is a red seaweed which grows on the seabed in a coral-like structure. Once applied to soil, Calcified Seaweed quickly breaks down and gradually releases calcium, magnesium carbonate and other trace elements.

phostrogen All Purpose Food - (granula)

All Purpose Plant Food is suitable for use on all garden plants including edible crops, fruit trees, lawns, young plants, seedlings and even houseplants. While the soil contains nutrients to help plants grow, over time even the richest soil becomes exhausted as the plants absorb the goodness they need through their roots.

Miracle Gro Bonemeal - (granula)

Bone Meal Root Builder is a slow-release, long lasting plant food. Ideal for use on fruit and vegetables, flowers, roses, shrubs and trees. Phosphate promote vigorous root growth and helps establish new plants quickly. Nitrogen encourages strong growth and healthy, lush green foliage. Organic matter naturally encourages micro-organisms to improve the soil fertility and structure

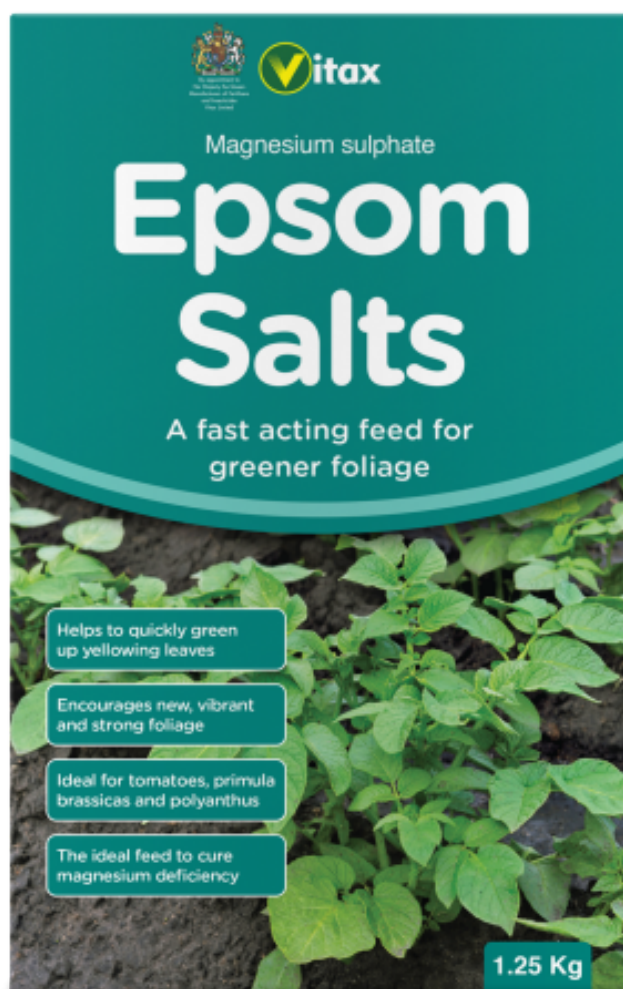

Vitax Rose Food - (granula)

Vitax Rose Food is a top quality rose fertiliser containing three major plant foods – nitrogen, phosphate and potash. Together with magnesium and iron, they ensure roses develop healthy green leaves and abundant blooms. Rose Food can be used for new roses, established and more mature roses or in an established rose bed. If applying to established and more mature roses, Rose Food can be used around the base of the plant in early spring and repeated during the summer.

Vitax dried blood - (granula)

Rich in nitrogen, Dried Blood is completely organic and promotes above-the-ground growth and healthy foliage. Fast acting, Dried Blood makes an excellent top dressing for foliage plants in the greenhouse or conservatory.

Epsom Salt - (granula)

Rapid cure for magnesium deficiency Magnesium is essential for the production of chlorophyll. Without the right levels of magnesium, foliage will turn brown and wither. Through the application of Epsom Salts, magnesium levels are raised enabling the growth of healthy plants.

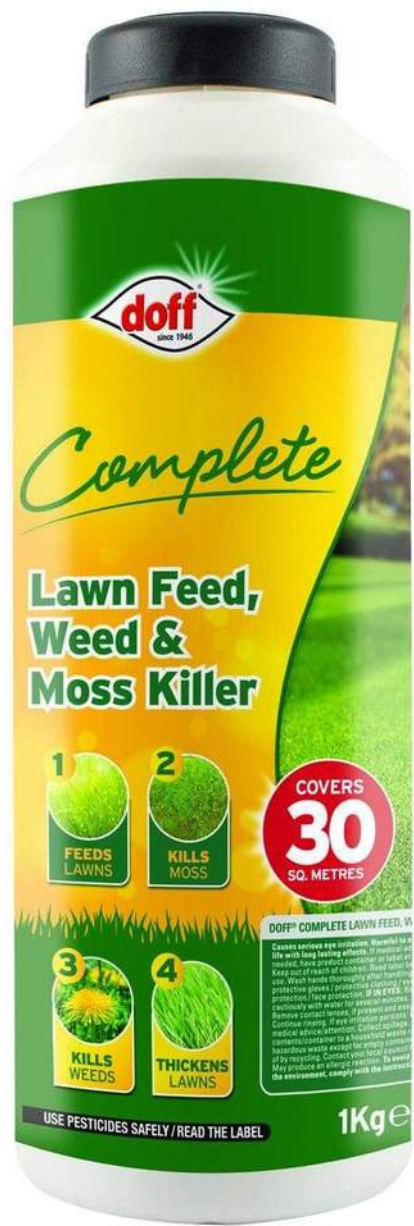

Blood Fish & Bone - (granula)

A traditional, organic-based general purpose fertiliser Improves vegetable, fruit and flower quality, Blood, Fish and Bone contains three major nutrients essential for strong and healthy growth. Contains nitrogen to encourage strong growth and healthy, rich green foliage. it slowly and steadily releases phosphate to promote vigorous root growth and added Potash promotes flower colour and improves ripening in fruit and vegetables

Superphosphate - (granula)

Quick acting fertiliser Encouraging strong root growth to produce healthy plants, Superphosphate is a quick acting fertiliser which can deliver higher yields and improved ripening. Used to help support fruit, root and seed crops, Superphosphate is ideal for transplanting cuttings, flowers, trees and shrubs.

Doff Complete lawn food - (granula)

Doff Complete Lawn Feed, Weed & Moss Killer is a granular formulation containing 21.73% w/w Iron Sulphate, 0.057% w/w Dicamba and 0.286% w/w 2,4-D and Mecoprop-P for the control of broad leaved weed species and moss on lawns. FOR USE ONLY AS AN AMATEUR LAWN TREATMENT.
